OBJECTIVE

As a highly experienced front-end developer and a dedicated programming professional, I initiated my programming career in the embedded industry before transitioning to front-end development in 2019. I have accumulated extensive hands-on experience in various projects, including IoT, e-Commerce, e-Learning, and CMS. I hold the title of a senior front-end developer and am committed to continuously enhancing my skills and expertise in this field.

WORK EXPERIENCE

May 2023 - Present

DatVietVAC Group Holdings (VieON Company)
Senior Front End Software Engineer
As a seasoned front-end developer at VieON, I specialize in the design and development of high-performance web applications for our OTT video streaming platform. Leveraging the Next.js framework, I work on creating seamless and engaging user experiences. My expertise covers a broad spectrum of responsibilities, including video player development, video encoding, SEO, ads integration, and payment systems. I also mentor junior developers and train interns to enhance their skills and knowledge.

Apr 2019 - May 2023

STYL Solutions PTE. LTD. in HCMC
Senior Front End Software Engineer
As a seasoned front-end developer, I specialize in the design and development of web applications utilizing ReactJS and Angular frameworks. My expertise encompasses the analysis, design, programming, testing (both UI and functional), documentation, and maintenance of web applications. Additionally, I provide support to junior developers to resolve issues and train interns to enhance their skills and knowledge.

2016 - 2018	**Kantar Media VN**
	Embedded Engineer
	With extensive experience in electronics engineering, I specialize in the design of printed circuit boards and embedded programming for matching and detection applications.

EDUCATION

Sep 2018 – Apr 2019	**CyberSoft Academy**
	Major: Front End Programming Expert
	GPA: 8.8/10

Sep 2012 – Dec 2016	**Industrial University of Ho Chi Minh City**
	Major: Electronics and Telecommunications Engineer
	GPA: 7.1/10
